ROHS 2011/65/EU

Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

EN 60950-1

European directive concerning the marketing of electrical equipment designed for use within certain voltage limits.

CE

Declaration of conformity, confirming compliance with the following certifications: EN61000-6-1:2007, EN61000-6-3:2007+A1:2011+AC:2012, EN61000-3-2:2014, EN 61000-3-3:2013.

EN 61000-6-3:2007/A1:2011/AC:2012

EU certificate of conformity for electromagnetic compatibility (EMC) and emissions in residential, commercial, and light industrial environments.

ANSI/BIFMA X5.5-2014

Certificate for the assessment of safety, durability, and structural performance of table products intended for use in commercial offices, institutional and educational environments, including retail spaces, restaurants, and cafeterias.

UL 60950-1

Compliance with Canadian standards for information technology equipment powered by mains or batteries, including electrical business equipment and related equipment, with a rated voltage not exceeding 600V.

TUV - EN527-1:2001 & EN527-2:2002 & EN527-3:2003

EN527-1:2001: European Standard specifying the main dimensions of tables and desks for general use.

EN527-2:2002: European Standard specifying the mechanical requirements for the safety of tables and desks.

EN527-3:2003: European Standard EN 527 specifying the requirements for mechanical strength and the testing methods for the structure of tables and desks. The tests are designed to be applied to a piece of furniture that is fully assembled and ready for use.
